

## DATACARD® ID WORKS® InTRO IDEnTIFICATION SOFTWARE

*ID Works Intro identification software provides a simple set of tools for start-up programs.*

### Entry level tools for ID card programs

Datacard® ID Works® Intro identification software offers a discrete set of features you can use to create and maintain a start-up ID program. When your program needs greater versatility for card creation and image handling, you can easily add new features and capabilities by upgrading to Datacard® ID Works® Basic, Standard or Enterprise identification software.

### Intuitive, user-friendly software

- **Easy program management.** This easy-to-use software package makes it quick and convenient to design ID cards, as well as manage image capture and printing processes. Features include incorporating information from Microsoft® Access databases, encoding magnetic stripes and printing bar codes.
- **Convenient integration.** With ID Works Intro software, you can leverage the features of Datacard® SP Plus Series card printers, as well as integrate with a wide variety of other brands of card printers. The software also supports image capture through the Datacard Capture Plug-in Tool, TWAIN systems and Video for Windows capture devices.
- **User-friendly interface.** The software features an easy-to-use interface with intuitive point-and-click navigation. Other helpful features include sample card and form templates, and online support.

## **Standard Features**

Simple card and production form design  
 CR80 card size (portrait or landscape)  
 Auto-create production form  
 Font sizing and colors  
 Field types  
 Variable text  
 Static text  
 Photo (with border option)  
 Bar code (9 types)  
 Magnetic stripe  
 Static graphic  
 Database management  
 Auto-create Microsoft® Access 2000 project database  
 Database support  
 Microsoft Access 2000  
 Help features  
 Online user's guide  
 Online help  
 Help desk support  
 Security features  
 USB hardware key  
 Compatible with the extensive line of Datacard® card printers  
 Image capture options  
 File input  
 TWAIN capture devices  
 Video for Windows capture devices  
 Datacard Capture Plug-in Tool

## **System Requirements**

Operating system  
 Microsoft Windows 2000, XP (32 or 64 bit), Windows Vista (32 or 64 bit), and Windows 7 (32 or 64 bit) operating systems  
 Web browser  
 Internet Explorer v6.0 or later  
 Memory  
 512 MB RAM  
 100 MB hard disk space for application (not including database)  
 Color  
 16-bit color (65,536 colors)  
 (Cameras may require higher color)  
 Resolution  
 800 x 600 screen resolution  
 (1024 x 768 recommended)  
 Peripherals  
 CD-ROM drive  
 Available USB port

## **SOLUTIONs And SUPPORT FROM A PROVEN PROVIDER**

Only Datacard Group offers the hardware, software, supplies and service required to manage secure centralized and instant card issuance. We understand the consumer demands, security risks and other unique needs of both issuance models. For 40 years, financial card issuers around the world have trusted us to make card issuance fast, affordable and secure. The Datacard Secure Issuance Platform reflects this unmatched experience. You can also optimize your investment with our full line of professional services for planning, data migration, program start-up and ongoing technical support. We provide support in more than 120 countries.
