

Designed and developed for intensive use, the new generation SUPERSTAR® is a high performance professional electric punching machine for plastic comb binding. It can bind from 2 to 450 sheets up to A3 size. With SUPERSTAR®, you can obtain exceptional performance to increase productivity and efficiency.

SUPERSTAR® is the ideal model for copy-shop, integrated printers workshops, and any professional who is looking for high quality document presentation.

### SUPERSTAR® Plastic comb binding

- binds 2 to 450 sheets 80 g
- up to an A3 format
- punches 35 sheets A4 80 g at a time

## PUNCHING

With vertical punching, the sheets are automatically centred and correctly aligned.

1

## BINDING

Simultaneously insert the punched sheets in the plastic combs for a perfect binding.

2

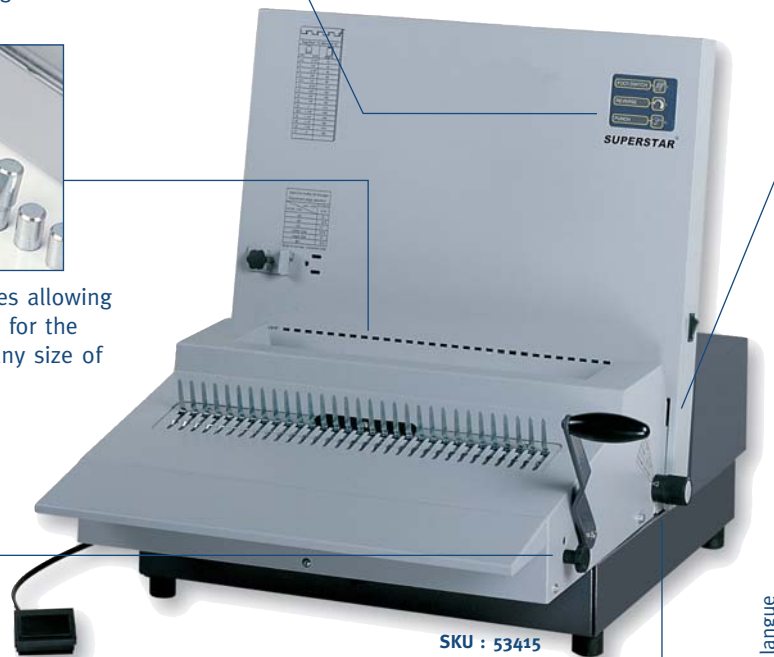

› The centralised control panel allows pedal or digital punching control and reverse gear in the event of blockages or overcramping.

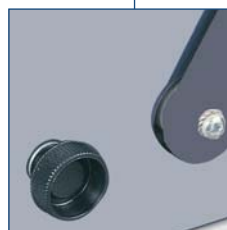

› The punching space opened on both sides allows perforation of sizes over 42 cm, 16<sup>1/2</sup>“.

› Releasable dies allowing perfect centring for the perforation of any size of paper.

code langue

› Adjustable opening of plastic combs, essential for mass binding.

› A must for large files, the adjustable punching margin gives improved strength to bound sheets.
